

TO SHUT OFF DEBATE.

Action of the Senate on the Silver Bill.

FIVE MINUTE RULE AFTER FRIDAY.

The House Silver Bill Referred to the Committee on Finance. The day in the Lower Chamber of the National Legislature—Candidates for Sergeant-at-Arms Canada's Position—The Tariff Bill—Other Capital Items.

WASHINGTON, CITY, June 10.—In the senate Tuesday the house silver bill was referred to the committee on finance. The senate agreed that, after 2 o'clock Friday, debate on the silver bill shall be continued under the five-minute rule. No time has been fixed for a vote.

Plumb's Amendment Amended. Plumb's amendment that no funds available for the payment of the public debt (including such as are kept for the redemption of United States notes) shall be retained in the treasury in excess of \$10,000,000, was amended on motion of Harris by adding to it the words "provided that the gold and silver coin and gold bullion in the treasury on which gold and silver certificates have been issued shall not be considered available for any purpose except the redemption of such certificates."

A Realty Amendment. In opposition to Plumb's amendment Sherman said the effect of it would be to leave only a working balance of \$10,000,000 in the treasury. He regarded the amendment very faulty, first, because it disturbed funds pledged by public faith; and second, because it would require the secretary of the treasury to carry on the operations of the government with a working balance of \$10,000,000.

Proceedings in the House. The house passed the senate bill amending the internal revenue laws, so as to authorize the commissioner of internal revenue to formulate rules and regulations by which beer may be carried direct from the vats to the bottling department without passing through the intermediate process of being drawn into kegs. The bill was passed changing the present system of drawback on exported beer and fermented liquors and permitting their exportation in bond in the same manner as distilled.

CAPITAL CULLINGS.

Spring and Winter Wheat Area. WASHINGTON, CITY, June 10.—The statistical returns of June to the department of agriculture include preliminary estimates of the area of wheat, both spring and winter, and its condition. While several states increased the area of winter wheat last autumn, the heavy reduction by plowing and planting in other crops, to replace the winter killed wheat in Illinois, Indiana, and to a limited extent in two or three other states, has reduced the acreage to a point below that of any year since 1880 except Kansas and Oregon. The percentages represent the actual area now growing in comparison with the acreage harvested last year and include all that was seeded last fall except what has been replaced by other crops. The general average is 91.2, a reduction of 8.8 per cent. of last year's winter wheat area.

Plenty of Candidates.

WASHINGTON, CITY, June 10.—Col. W. P. Canada, sergeant-at-arms of the senate, retires on the 30th instant by resignation. The candidates for the position so far named are: Messrs. Reade, of Maine; Bryington, of Connecticut; Dunn, of Delaware; Bailey, of Pennsylvania; Swords, of Iowa; Valentine, of Nebraska; Reed, of Minnesota, who have been heretofore named, and Gen. Lester S. Wilson, of Roseman, Mont. It is possible that the caucus may go farther in the reorganization of the senate than the sergeant-at-arms; but of this there is no official notice.

The Tariff Bill.

WASHINGTON, CITY, June 10.—The Republican members of the senate committee on finance at their meeting Thursday morning went through the wool and silk schedules of the tariff bill and took up the sundries schedule. None of the schedules have been turned over to the Democratic members yet. It is said this is due to the fact that none of the schedules have received final action from the Republicans. The Republicans have not determined whether they will make an elaborate report on the bill or not.

The Hennepin Canal Project.

WASHINGTON, CITY, June 10.—Senators Allison and Farwell and members of the house from Illinois and Iowa appeared before the senate committee on commerce in support of the appropriation of \$500,000 to begin work on the Hennepin canal project contained in the river and harbor bill. The item was retained in the bill, only 1 vote—that of Senator Veto—being cast against it in the committee.

Veterinary Corps of the Army.

WASHINGTON, CITY, June 10.—The house military affairs committee has ordered a favorable report on a bill to establish a veterinary corps of the army. The bill for the organization of the national road from Washington to Mount Vernon, Va., was reported adversely to the committee from a sub-committee and further action on it postponed.

Against the Sale of Liquors.

WASHINGTON, CITY, June 10.—Morse of Massachusetts has introduced in the house a bill prohibiting the sale of intoxicating liquors upon all grounds on which are located exhibition and exposition buildings for which appropriations are made by the government. The same bill was introduced in the senate "by request" by Blair.

PRINTERS AT ATLANTA.

Thirty-Eighth Annual Session of the International Union.

ATLANTA, Ga., June 10.—The thirty-eighth annual session of the International Typographical union was called to order by President E. T. Plank, with over 140 delegates present, representing Canada and almost every state in the Union. Among the delegates are two ladies—Miss Taylor of Cincinnati and Miss Qualtrough of Rochester. The morning session was devoted to the work of organization and the appointment of committees. The afternoon session was a short one taken up with routine work. The most important action was the passing of resolutions endorsing the Chace-Breckinridge international copyright bill, and directing Secretary McClevey to communicate the same to the president of the senate and the speaker of the house of representatives. The resolutions urge congress to pass the bill as originally introduced, including the type-setting and non-unionism clause.

Accident to Oberlin Students.

OSHERLIN, Ohio, June 10.—Six students of Oberlin college who were assisting in drawing the Oberlin college base ball team about the city in a parade fell to the ground and before they were able to rise were run over by a band wagon containing about thirty-five people, which was following immediately after the carriage in which the ball team was riding. The horses were started, and although every effort was made to stop they could not be checked until after the heavy vehicle had passed over the prostrate boys. All of them were hurt, and three of them—B. A. Williams, John Ellis and O. J. Luthia—are so badly injured that it is feared they can not survive.

Riot at Ellsworth, Me.

BANGOR, Me., June 10.—Quite a riot was reported from Ellsworth, where some men of the place became involved in a bloody fight with some employees of Hobbs' circus. A large number participated in the fight which resulted in many broken heads and severe bruises. After a desperate struggle partial order was finally restored. It is reported that a special police force was appointed and patrolled the streets armed with rifles. The police arrested a number of the city. Several men were severely injured.

Counterfeiters Captured.

ST. LOUIS, June 10.—For the past two weeks a room on the fourth floor of the building, 212 Olive street, has been used as headquarters by a gang of expert counterfeiters. Early Tuesday morning the police raided the room and arrested two of the men most actively engaged in the work. They gave their names as Fred Baxter and John Rafferty. A complete outfit of molds, dies, etc., for counterfeiting purposes was found in the room. The police expect to make more arrests in connection with the gang.

Not the Man Who Robbed Moffatt.

ST. LOUIS, June 10.—The paying teller of the First National bank, of Denver, (the only man who saw the robber plugging the money into the safe) yesterday failed to identify Mansfield King as the man who robbed President Moffatt of \$21,000. It is thought the requisition papers will be returned unsigned. The opinion is freely expressed here that King is a consummate liar. It is probable that a commission will be appointed to investigate his sanity.

Fasted Three Months and Died.

DURHAM, Ia., June 10.—Tommy Sutton, after living without solid food for nine-six days, died Monday. During all his fast his only sustenance was soda water. Proclaimed to be a saint by a council of physicians was held, and all united in pronouncing it a case of paralysis of the stomach and bowels. He leaves a widow and five children.

FREDERICKTOWN, Mo., June 10.—Sheridan Copess, aged 22 years, a shiftless character of this place, and John Wathen, telegraph operator on the Iron Mountain railroad, have been arrested for robbing the mail carrier of \$3,000 near Mine La Motte, on Friday last. Wathen broke down and confessed the crime. Most of the money has been recovered.

Ate Poisoned Cake.

COLUMBIA, S. C., June 10.—Some time ago Farmer J. S. Reeves, of Marion, put poisoned cake about his barn to kill rats. A few days ago his two little sons, aged 3 and 6, were playing in the hay field and ate some of the cake. They were taken violently ill, and one of them has since died. It is feared the other little fellow can not recover.

REJECTED THE BILL.

The Women of England Given Another Set-Back.

ACTION OF THE BRITISH LORDS.

The Measure to Enable Women to Serve as Members of County Councils Defeated Once More—Doings in the House of Commons—An Interview with Prince Bismarck on the Subject of Over-Education—Foreign Flashes.

LONDON, June 10.—The house of lords Monday rejected the bill to enable women to serve as members of county councils. While from the known consensus of opinion among the lords on this subject their action was not surprising, it was still thought that the presence of Miss Cobden and Miss Cons in the London county council by virtue of popular election and the additional fact that the measure was supported by the lords, would have been enough to keep the fact from the public. Two students accused of making too free with the opposite sex have been expelled and their class is in high doubt over the affair. They declare that they will never submit to the injustice, but the lords have decided to remain expelled and there is no probability that the faculty will recede from its position. During the last term eight students have been expelled for the same offense.

DEATH TOO GOOD FOR HIM.

Devilish Atrocity Committed in the Heart of Minneapolis.

MINNEAPOLIS, Minn., June 10.—A horrible outrage, committed in the heart of the residence portion of the city Saturday morning, has just come to light. A young man, Mr. Smith's residence at night, having Mr. Smith's absence from the city. He blew out the light, and entered the room of Mrs. Smith. The woman, who had a 4-weeks-old babe at her side, fainted, and the brute brushed her neck and breast, and then, and struck her to the floor.

The Victim Goes Crazy.

Fearing that her screams would bring in the neighbors, she finally fled, taking only her gold watch and chain. Mr. Smith returned Saturday night, and in the midst of the wife's recital to him, she suddenly became a raving maniac, and flew at his throat, inflicting many wounds. Since then she is the wildest excitement in the neighborhood, and should the man be caught he would be lynched on sight.

Cyclone in Alabama.

ANNISTON, Ala., June 10.—A wind storm struck Piedmont, a small town twenty-five miles south of the city, on Sunday. The storm struck the town and leveled the three-story brick and stone building of the Bank of Piedmont, which was nearly completed. Mr. Sullivan, a white man, and a negro, whose names are unknown, were working on the roof, and were thrown to the ground and fatally injured. After striking the bank building the cyclone rose into the air, not doing any more damage in the town. The building cost about \$15,000. News from the surrounding country reports the heaviest rain fall of the season and great damage to growing crops will result.

A Discouraging Outlook.

ST. PAUL, June 10.—The trustees of MacAlister college, of this city, the Presbyterians meet of learning, have been called to meet to decide whether the institution shall be abandoned. The debt is now \$130,000 and the college is annually running behind. President S. A. McCurdy, the head and front of Calvinism in Minnesota, will resign in any event, and Professor Kirkwood, the executive officer will probably follow suit. The Presbyterians are much discouraged at the outlook. An effort will be made to induce the wealthy Twin City Presbyterians to assume the debt and title over MacAlister's difficulty.

Collision in Wisconsin.

PLYMOUTH, Wis., June 10.—A serious collision on the Milwaukee and Northern railway occurred a mile south of this city. An engine with a crew of trackmen ran into a wrecked freight which they were sent out to assist. Ten or more men were injured, and four seriously. Those whose injuries are the worst are: Thomas Rapperson, carsmith, Green Bay, skull badly fractured; John Burke, section foreman, Appleton, left leg fractured and spine injured; Mat Anon, trackman, Appleton, scalp wounds and shoulder badly bruised; Emil Hochman, Appleton, spine injured. She went to bed in perfect health, and when her mother attempted to awaken her the next morning she found it impossible to do so. Physicians were summoned, but it was a deep mystery to them. Her face wears a rosy color and her lips part in a smile. Her heart beats and her sleep is gentle and child-like. She is given food and takes the nourishment naturally.

MICHIGAN COLLEGE TROUBLES.

The Fight at Hope College Still On—The Battle Creek College.

HOLLAND CITY, Mich., June 10.—The fight between the senior class and the faculty of Hope college is still on, and it is doubtful if a settlement can be reached. Somebody has issued a set of rules for the guidance of the faculty, and the resulting items have not yet been made. The rules state that no member of the faculty shall be allowed to absent himself from chapel, use profane language, attend horse races, pull his wife's hair, or erect any signs about the place. The faculty are forbidden to drink tea or part in any street stage show. The posting of these rules has raised a whirlwind of passion, and it is now a fight to the death.

Trouble at Battle Creek.

BATTLE CREEK, Mich., June 10.—The Battle Creek college proposes to follow the example of other places of learning, although the faculty has made strenuous efforts to keep the fact from the public. Two students accused of making too free with the opposite sex have been expelled and their class is in high doubt over the affair. They declare that they will never submit to the injustice, but the faculty have decided to remain expelled and there is no probability that the faculty will recede from its position. The committee on street car tracks on North Broadway made their report.  
Supervisor Freeman moved that the committee on printing receive proposals from the different printing offices for printing the proceedings of the board of supervisors.  
The purchasing committee was authorized to make contracts for county coal for the ensuing year. After which the board adjourned until this morning.

**REVIEW POST OFFICE.**  
Our Informant was "OR." EDITOR REVIEW—Du Fay Montgomery wishes you to state in connection of an erroneous statement in your issue of the 10th inst that his name was held on Friday, the day preceding Barnum's show, and on Sunday as you state, and his arm so far as we are able to judge, was not broken, but very badly sprained and bruised.

**More Good Work.** EDITOR OF THE REVIEW—In your Saturday's issue I saw a communication from a citizen in reference to a job of work done by Street Commissioner Alexander on North Broad street, making a hollow in the street near a man's gate. That reminds me of a job he did on West Decatur street near Constable Weisell's. He turned the water of the sewer on to Weisell's lot. For further information see an ex-alderman of four years ago. I am tired of seeing our taxes paid out that way, and some remedy should be applied. A TAXPAYER.

**Argenta.** Special Correspondence to The Review. Mrs. Asa Towers is on the sick list. C. B. Tague is clerking for C. B. Currier. Growing crops have suffered the past week for want of rain.

Dr. Moore of Decatur made a professional trip to Argenta Saturday.

Mrs. George Wilson and Mrs. Tooley were very low Saturday and Sunday.

George Armstrong is "holding down" the telephone office at Orena for two or three weeks.

Rev. J. F. Shney occupied the U. B. pulpit Saturday, instead of the regular pastor, who was absent.

Mrs. C. A. Lindsay returned home Monday evening from a month's visit in the family of her brother at Dubuque, Ia.

Miss Flora Fesler went to Normal Friday, to visit her brother Charles, who is attending school at that place. She returned Monday.

Bill Shannon is in Spring Valley, Ill., learning telegraphy in the office of his brother, C. H. Shannon, agent of the C. B. & Q. at that place.

A sister of Mrs. F. F. McMullen from Colorado, formerly Miss Mary Rankin of Argenta, and three children are visiting in the family of the former.

Miss Haines of Champaign, granddaughter of Mrs. William Brennan, returned home Saturday evening after a brief visit with the family of Mrs. Brennan.

One hundred and eighty tickets were sold to Decatur Saturday from here. Barnum wanted to "see them on a little matter of business," so they called on him while he was near.

Marsh Griffin and Emmet Brown returned Friday from Covington, Ind., where they had been attending school. They will spend the vacation at home and return to school Sept. 2.

The Children's Day exercises at both churches Sunday evening were well attended and the assemblies were well entertained. There was an exceptionally large crowd at the U. B. church.

Dick Ray "has it in for" the Illinois Central and is running an opposition "omnibus line" to Decatur to empty the Central's treasury, or at least to keep part of the checks from finding their way there.

Born, to Mr. and Mrs. James Beckham, on Thursday, June 5, a boy. To Mr. and Mrs. W. T. J. Cooper on Saturday night night June 7, a boy. The census enumerator may come now and take the census of Argenta.

C. J. Fesler, who is at present attending school at Normal, will return home in about two weeks. Charles has accepted the position as teacher for the winter term at a handsome salary. Charles is advanced far toward the front ranks in the vast army of Macon county educators. The Zion patrons can well congratulate themselves on getting such a successful teacher.

The Daughters of Rebekah and Odd Fellows of Argenta as well as a social and give a supper in their lodge room and G. A. R. hall on Wednesday night of this week. The invitations are limited to the "family," i. e., Odd Fellows, their families and friends who may chance to be living with or visiting in the families of Odd Fellows at that time.

**How They Do It.** The Decatur Brewing company have just received a carload of beer cases. Their bottled beer trade is increasing and they must have cases and bottles enough to fill orders. Their storage vats always contain three to four months' of beer and when you telephone your order your case will be filled and ready for you in a very short time. Remember their beer is always fresh, just as good as when you try a glass at the brewery.

**Cats and Rats.** Mrs. Vernie Corcoran, of Storm Lake, Ia., daughter of Willis Johnson, gives an account of a "happy family" there that is almost incredible of belief, but it is given on good authority. An old cat has a family consisting of four kittens and three half-grown rats. The rats were caught in a trap and put in with the old cat to see if they would kill them. Instead of that pussy took them into the family and all have dwelt happily together for several weeks, the cat making no distinction between kittens and rats when it comes to suckling the young ones.

**Special Correspondence to The Review.** Albert Mowry took in the Peoria excursion Tuesday.  
Frank W. Stewart is out with a new spring suit of clothes.  
Miss Lizzie Morris, of Mt. Zion, was in our burg over Sunday.  
Miss Marie Stout, of Emery, is visiting her friend, Miss Bell Hall.  
Miss Stella Costely, of Cerro Gordo, is visiting our burg. She is a guest of Mrs. H. C. Mowry.  
Ray Hays and Ernest Ruhl attended Children's Day exercises at Center Ridge church last Sunday.  
Miss Emma Crowe was very pleasantly surprised at her home last evening by her young friends, in honor of her 18th birthday. Refreshments were served at the proper time. Those present were Misses Anna Stoll, Stella Costely, Clara Bixler, Ruth Lehman, Emma Crowe, Laura McMillan, Albert Mowry, Lewis and Max Ruhl, John and Nuts McMillan.

**A Horse That Didn't Like Cats.** Farmer Thurber, of Maurice, Pa., saw a cat rubbing its sides against his stallion's forelegs and making friends with the horse. At first the stallion appeared to be friendly toward the cat, lowering his nose and letting the cat rub against it. All at once the horse seized the cat by the neck and savagely beat it against the side of the stall. The cat scratched the stallion's under jaw, but the enraged horse kept shaking it until it had the cat by the neck and was limp and almost lifeless. Then the horse dropped the cat in front of his manger and paid no more attention to it. When the farmer picked the cat up it was dead with a broken back.  
Farmer Thurber said that all the cats in the barn seemed to like to go around the horse and make friends with him, and the horse encouraged them until they had confidence in him. Then at the first good chance he would grab them by the neck with his teeth and beat the life out of them before he let go. After their death, seven cats were found in his stall on different mornings during the winter.—Louisville Courier-Journal.

**Telephoning in Russia.** During 1889 experiments were carried out with a view to establishing telephonic communication between Moscow and St. Petersburg, by means of the ordinary telegraph line, the system of telephony employed being that of Mr. E. Groszoff.  
The peculiarity of Mr. Groszoff's system centers in the fact that the conductor employed is of iron, whereas it has hitherto been believed impossible to use iron wire for long distances. The Russian officials estimate that a line between Moscow and St. Petersburg, constructed with iron wire, would cost at least 20 per cent. less than if copper wire were used.—Electrical Review.

**An Extraordinary Tree.** One of the most extraordinary of African trees is the baobab. It is almost a forest in itself and serves for a complete sylvan palace on the largest scale. Rarely growing more than seventy feet high, its branches extend horizontally, supported by a trunk which has a girth greater, it is believed, than that of any other known tree. One of these extraordinary trees was found on measurement to be forty feet in diameter. The age of another—counting the concentric rings—was found to be 5,000 years at the very least.—New York Telegram.

**How to Fatten a Chicken.** This is the way a chicken or duck is fattened: Thrust into a cylinder, it is kept in darkness for three weeks; thrice per diem a patent food, composed largely of cornmeal, is forced by a small pump into its crop; it enjoys no alternative—it must sleep and eat; paralyzed, inert, its flesh becomes white and tender, and in three weeks it is as fat as a ball of butter. The cost of fattening a chicken does not exceed eight cents; a chicken so fattened brings ten cents more a pound in the market than other chickens.—Eugene Field in Chicago News.

**Ben Hur and Ivanhoe.** There is one curious thing I have noticed in my business. I do not know that it means anything, but it is curious just the same. As sure as I have a call for "Ivanhoe," which is frequently, so certain will I have a call for "Ben Hur" within forty-eight hours thereafter. This became a subject of comment in the house, and one of my men kept a record and found that, almost invariably, a call for "Ivanhoe" was followed by one for "Ben Hur," and by different people—Interview in Chicago Tribune.

**Ten Thousand Dollars a Day.** Francisco Sanchez, alias Lagartijo, is probably the most daring, skillful bull fighter that ever lived. His handling of the wild and savage bulls of Jarama is something marvelous. He now seldom appears, \$10,000 being the prize demanded and secured in advance for such performance. He is a very great pet with the Spanish nobility, is very rich, and was the warm personal friend of the late King Alfonso.—Cor. New York Commercial Advertiser.

**Philistines in Battak Land.** The Battaks are a people of common origin with the Malays and resembling them in many respects, who live along the western coast and in the interior of the island of Sumatra. The district chiefs form a confederation, the strongest one among them residing near the Batak land. They have enjoyed the advantages of civilization, are good agriculturists, have an original system of writing, and take care to have their children instructed in such arts and knowledge as they appreciate, and yet they eat enemies who are taken armed and criminal to a certain class. As sentimental people in western countries practice in a "language of flowers," so the young people of either sex among the Battaks correspond by means of a language of leaves. The leaves themselves have no significance, but their names, modified perhaps with the notes of birds, of insects, indicate a rhyme with the word which the correspondent wishes to suggest.—New York Star.

**To The Readers And Especially the LADY READERS OF THE REVIEW.**

The manufacturers of "THURPUN" Baking Powder making their bow to the public desire to frankly state a few important facts:  
First—This powder has been adopted and endorsed by the Wholesale Grocers' National Association as the best pure cream of tartar Baking Powder made.  
Second—We make no extravagant claims or assertions; the quality of the powder is expressed by the name.  
Third—We have no words of condemnation for other powders; there are some powders in the market which are very good, there are far more that are poisonous; we know ours to be pure and of the highest class.  
Fourth—Realizing that results alone can prove the merit of any article, we believe that "THURPUN" Baking Powder, which is an advancement in modern discovery and science, will furnish results for the house hold never before accomplished, thus proving helpful to the health and "popular with the ladies." We respectfully request for this powder a careful trial and are confident that it will obtain precedence over all others in the homes of the people.
